The Seventeenth Amendment:  
Crushing the Rights of the Sovereign States of the Union

Dear Representative or Senator:

This letter is the second and final one I'm sending to the 1,100 state representatives and senators who either supported and/or voted (if given the opportunity) for a Tenth Amendment Resolution in their legislature during 2009.

There is another critical issue that must become a major goal in order to put teeth into those Tenth Amendment Resolutions besides a sound money bill for each state.

Tens of millions of Americans have fought the U.S. Senate for decades, not only because they continue to introduce and vote for unconstitutional legislation, but also over the refusal to seal our borders and deport all illegal aliens with NO amnesty in any form.

We're about to go through yet another massive battle to stop another destructive amnesty. Such lunacy will enable millions of illegals to continue stealing jobs that belong to Americans. Look at states like Arizona – on the brink of financial collapse. Sen. John McCain, is in full lock step with Marxist Obama/Soetoro on this critical issue and Arizona is powerless to replace him.

Further destruction since the Seventeenth Amendment was declared ratified:

Renegade federal judges that should be impeached. Unfair "free trade" treaties that have destroyed the three most important job sectors that made America the greatest, most productive and financially blessed country on the face of the earth: agriculture, manufacturing and industrial. Americans stand in unemployment or welfare lines while good paying jobs continue to be shipped to foreign countries.

What a slap in the face to our veterans who fought in the Korean "conflict" and the Viet Nam "era" to stop the proliferation of communism, while the U.S. Senate and past presidents of both parties since 1994, grovel at commie China's feet and hands them our lifeblood via treaties.

The American people are fleeced year after year to the tune of BILLIONS of dollars for "dues" to remain a member of the communist UN, which has never kept peace any where on this earth. Our participation is not only moral rot, it's clearly unconstitutional.

The states of the Union were guaranteed a republican form of government when they created and breathed life into the federal government. With the fraudulent ratification of the Seventeenth Amendment in 1913, the states lost their suffrage

rights and have been stomped on ever since. If the states do not challenge the Seventeenth Amendment, it will be only a few more years before they become nothing more than occupied territories under a world government:

"NAFTA will represent the most creative step toward a New World Order taken by any group of countries since the end of the Cold War. What Congress will have before it is not a conventional trade agreement, but the architecture of a new international system. The trade agreement with Mexico is the vital first step for a new kind of community of nations, a first step toward the New World Order." CFR, Trilateralist traitor, Henry Kissinger, July 18, 1993

The National Archives is being looted of original documents; of this, I have first hand knowledge. Because of this stealing of our national history, I went to Washington DC last year and obtained court certified documents for every state and their vote on the Seventeenth Amendment. It was not ratified. I don't care what Wikipedia says.

What can the states do? They can ask their congressional delegation, house and senate, to repeal the amendment. The U.S. Congress is not going to repeal that amendment. They are drunk with power – both parties.

The states can sue and take this to the U.S. Supreme Court where it should have gone more than two decades ago when the evidence was first introduced by a man named Bill Benson. On January 8, 2010, Nevada Gov. Jim Gibbons announced his state will sue the federal government over the unconstitutional health care 'reform' hoax moving through the Outlaw Congress. The states sue the feds all the time.

I guarantee you there will be a very substantial number of Americans in your state that will get behind you on this effort. We cannot have economic recovery without jobs. We must bring home those millions and millions of jobs that have been sent to foreign countries. That won't happen unless we get out of the unconstitutional NAFTA, CAFTA and GATT treaties. Otherwise, our nation will continue to wither and die under "free trade." The states must be able to appoint their U.S Senators to represent the interests of the state, not the agenda of the globalists.

Please get together with your colleagues and discuss how to get this done with your State Attorney General. Once again, I have set up a very simple web site in an effort to assist legislators in educating their colleagues on this critical matter and why the states must force a show down with the feds. Enough is enough.
